Dear Parents/Guardians,

Re- Planetarium

I am writing to inform you of an exciting event that every member of the Junior school will experience next Friday (24th October).

Next week, as some of you may be aware, is activity week in the Senior school. Amongst many other exciting activities the Space Odyssey Planetarium has been booked. This is truly a planetarium for the 21st Century which uses state-of-the-art "Fulldome" 360-degree 3D digital projection technology to create stunning graphics and advanced computer simulations that are projected throughout the inner surface of the dome to fully envelop the students. We have been lucky enough to also use this resource and give the Junior school students a really fun and exciting learning experience. If you would like to find out more please visit www.spaceodyssey.co.uk

The sessions are run by a trained physics teacher, Simon Ould and we have booked two different sessions for KS1 (Nursery to Year 2) and KS2 (Year 3 to Year 6). KS1 will go 'Back to the Moon', this session gives an exciting look at the past, present and future of lunar exploration. KS2 will experience 'We are Aliens!', which explores how and where scientists are looking for evidence of alien life, both within our solar system and beyond.

The cost of these experiences is only £2.50 per child. Please could you ensure that this money is given to your child's class teacher by Wednesday 22nd October.

This should be an excellent learning experience for all the children and a great way to end a very hard working half term.

Should you have any questions then please don't hesitate to contact me.

Yours sincerely

Ben Noble
